1 Fabasoft Personnel File 2024 April Release

Find out more about new features and improvements in Fabasoft Personnel File.

1.1 Users

As an end user you can expect the following new features.

1.1.1 Unstructured Personnel File Shelves

For personnel file shelves containing more than 10000 entries, there are now unstructured shelves to make it easier to work with many personnel files. Personnel files can therefore be searched and filtered very quickly due to query-based lists.

1.1.2 Reports for Birthdays and Anniversaries

Birthdays and anniversaries are no longer managed as lists on the personnel file dashboard, but an Excel report is generated instead, which can be downloaded via the context menu "Download Birthdays/Anniversaries Report".

2 Fabasoft Personnel File 2024 February Release

Find out more about new features and improvements in Fabasoft Personnel File.

2.1 Users

As an end user you can expect the following new features.

2.1.1 Making the Use of Personnel Files Mandatory

There is now a new setting on the configuration or personnel file shelf that allows all documents created or registered in a personnel file to be created as personnel file documents.

3 Fabasoft Personnel File 2023 September Release

Find out more about new features and improvements in Fabasoft Personnel File.

3.1 Users

As an end user you can expect the following new features.

3.1.1 New Role "Change Access (Master Data)" for Personnel File Shelves

There is now a new role for personnel file shelves, with which only master data of personnel files can be changed. Furthermore, personnel files can be imported with this role, but not created or deleted.

4 Fabasoft Personnel File 2023 February Release

Find out more about new features and improvements in Fabasoft Personnel File.

4.1 Users

As an end user you can expect the following new features.

4.1.1 Creation of Personnel File Documents outside of Bulk Documents

Until now, personnel file documents could only be created in the context of bulk documents. Now it is possible to create a personnel file document directly as a standalone document in a personnel file. In addition, you can now create personnel file document templates, for example, in the configuration or in the settings of a personnel file shelf.
